PROFESSIONAL SUMMARY
Full Stack Developer with a Coding Boot Camp Certificate from UT Austin. Proficient in JavaScript, HTML, CSS, React, NodeJS, MySQL, and MongoDB. Skilled in individual and group projects that utilize Object Oriented Programming, passionate about app development.

TECHNICAL SKILLS SUMMARY
Frontend: JavaScript, HTML, CSS, jQuery, Bootstrap, Tailwind
Backend: React, Node, MySQL, MongoDB, Express, Jest
Other: Visual Studio Code, GitHub, Git Bash, Slack, Microsoft Office Suite

RELEVANT EXPERIENCE

- Collaborated on group projects at the University of Texas at Austin, using Agile methodology to manage tasks, with GitHub for version control and Slack for efficient team communication.
- Designed and developed single page web applications using JavaScript, HTML, and CSS. Implemented React for complex applications spanning multiple pages.
- Organized JavaScript projects with multi-file structures, demonstrating proficiency in Node.js and leveraging Inquirer for streamlined command-line interfaces.
- Integrated OpenWeatherMap API functionalities into a JavaScript-based application, allowing users access to real time weather data.
- Employed JavaScript, Node.js, Sequelize, and MySQL2 to create an e-commerce database.
- Proven ability to quickly learn new software and technologies during academic tenure at the University of Texas at Austin, as well as through experiences at Apogee and the Army National Guard.

PROJECTS
Weather Dashboard
- Summary: Weather forecast application.
- Tools: HTML, JavaScript, CSS, Bootstrap, OpenWeatherMap API
- GitHub Repository: https://github.com/derekm129/weatherDashboard
- Website: https://derekm129.github.io/weatherDashboard/

E-commerce Back End
- Summary: Backend for an e-commerce website that allows for creating, updating, and deleting products.
- Tools: Node.js, Express.js, MySQL2, Sequelize
- GitHub Repository: https://github.com/derekm129/E-commerce-Back-End

Professional README Generator
- Summary: Application for generating READMEs based on user input.
- Tools: JavaScript, Node.js, Inquirer 8.2.4
- GitHub Repository: https://github.com/derekm129/readmeGenerator

EDUCATION
Web Development Boot Camp Certificate	University of Texas, Austin, TX 2024
Responsive Web Design Developer Certification	freecodecamp.org, 2024
Bachelor's, Telecommunications	Indiana University, Bloomington, IN 2014

WORK HISTORY
Photographer	Photo Texas Photography, Austin, TX	07-2022 to 10-2023
Agency Worker	A-List Staffing — Austin, TX	12-2020 to 07-2023
