PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience in JavaScript, HTML, CSS, React, Node.js, and SQL/NoSQL databases. Proven ability to develop scalable full-stack applications using modern frameworks and Agile methodology. Strong problem-solver and team player skilled in debugging, troubleshooting, and building reliable applications.

TECHNICAL SKILLS SUMMARY

Frontend: JavaScript, TypeScript, React, HTML, CSS, Bootstrap, Tailwind
Backend: Java, Node.js, Express.js, Jest, Python
Databases: MySQL, MongoDB, Prisma, Sequelize
Tools: Command Line Interface (CLI), Git, GitHub, GitHub Actions (CI/CD)

RELEVANT EXPERIENCE

- Worked in a team collaboration environment using Agile methodology and Software Development Life Cycle (SDLC) principles to manage tasks and deliver project milestones.
- Utilized GitHub for version control and implemented CI/CD pipelines using GitHub Actions to automate testing, building, and deployment processes.
- Designed and developed single-page and full-stack web applications, debugging issues and optimizing performance for improved user experience.
- Developed unit and integration tests with Jest to ensure code reliability, improve code quality, and catch bugs early in the development process.
- Diagnosed and resolved technical issues through debugging and root cause analysis across full-stack applications.
- Demonstrated the ability to quickly learn and adapt to new technologies through academic projects and professional experience in dynamic environments.

PROJECTS

AI Image Analyzer

- Summary: Cloud-based application that analyzes images using AWS services to generate descriptive tags and text, leveraging serverless architecture and AI integration to process image data efficiently.
- Tools: AWS, Terraform, JavaScript, Python
- GitHub Repository: https://github.com/derekm129/imageRecognizer

Task Manager

- Summary: Full-stack task management application enabling CRUD operations, featuring a responsive React frontend and a Node.js backend, ensuring reliable data flow and consistent application performance.
- Tools: React, TypeScript, MongoDB, Prisma, Node.js
- GitHub Repository: https://github.com/derekm129/taskManager
- Website: https://derekstaskmanager.netlify.app/

E-Commerce Backend

- Summary: REST API for managing e-commerce data, including products, pricing, and inventory, implementing structured database models and optimized backend logic to improve performance, scalability, and reliability.
- Tools: Node.js, Express.js, MySQL2, Sequelize
- GitHub Repository: https://github.com/derekm129/E-commerce-Back-End

EDUCATION

AWS Cloud Practitioner Essentials AWS Training and Certification (2025)
Web Development Boot Camp Certificate University of Texas, Austin, TX (2024)
Responsive Web Design Developer Certification freecodecamp.org, (2024)
Bachelor's, Telecommunications Indiana University, Bloomington, IN (2014)

WORK HISTORY

Lead Photographer 07/22 -Present
Photo Texas Photography, Austin, TX

- Led on-location photography services for K–12 schools, delivering consistent, high-quality images by using advanced manual camera and lighting techniques to meet client preferences.

Agency Worker 12/20 – 07/22
A-List Staffing, Austin, TX

- Supported various clients with administrative tasks such as customer service, data entry, troubleshooting, and technical support by adapting quickly to different work environments and software tools.

Field Specialist 11/18 – 03/20
Peloton**,** Carlsbad, CA

- Consistently received five-star reviews for exceptional customer service in delivering and assembling Peloton bikes and products while conducting demonstrations on their usage and maintenance for clients.

1st Lt. Fire Support Officer 12/14 – 05/18
Indiana Army National Guard, Jasper, IN

- Directed a Fire Support Team in tactical problem-solving and strategic planning, utilizing military and technical knowledge to achieve mission objectives.
